SKILLS

- Java
- HTML
- CSS ,JavaScript
- MySQL
- OOPS concepts

CERTIFICATIONS

- Java Programming - Great Learning
- SQL - SkillRack
- Database for developers: Foundation - Oracle

CO-CURRICULARS

- Technical Quiz - SRM Institute of Science and Technology
- Techons Connections - Velammal Engineering College
- Coding & Debugging - Velammal Engineering College

LANGUAGES

- English
- Tamil

PROJECTS

1.Crypto Stream- Website

Description:

A comprehensive cryptocurrency price tracking app built with React. Users can monitor real-time prices of various cryptocurrencies and set personalized watchlists. Utilizes APIs for accurate market data retrieval.

Technology stack:

Front-end Development:

React, JavaScript, HTML, CSS

<https://github.com/vicky-carlo/crypto-stream-website-react>

2.IOT based smart medicine suggestion box for monitoring and reminding the patient

Description:

The "Smart Medical Box for Monitoring" is a new system designed to improve how we manage our health at home. This project uses special sensors and Internet of Things (IoT) technology to check important health signs like heart rate, temperature, and blood oxygen levels (SpO2) in real-time. It uses a small, easy-to-use device with sensors to keep track of these important health numbers all the time.

Technology stack:

- ESP8266
- Heart Rate Sensor
- LM35
- SPO2
- GSM

EDUCATION

GRADUATION : Bachelor of Engineering

(Computer Science)

Anna University

Velammal Institute of Technology, Ponneri, Chennai

2020 - 2024

8.82 CGPA

HSC : State Board

Padma SarangaPani Higher Secondary

School, Chennai

2019 - 2020

74.6%

SSLC : State Board

Padma SarangaPani Higher Secondary

School, Chennai

2017 - 2018

82%

INTERNSHIP

Techno Hacks

Web development internship

4weeks - completed
